

I am in a relationships with a man who has 3 children. He recently got custody of them and we are now raising them together. These boys were exposed to very unfortunate circumstances previously and we are now trying to provide all we can for them. We take comfort in listening to KLOVE everyday on our hour commute to school as well as any other time we are in the car. I can't explain to you how wonderful it is to hear them sing songs and give praise to the Lord. KLOVE is a blessing from God and our family will forever be thankful!
